

REISSUE APPLICATION DECLARATION BY THE INVENTORS

As below named inventor, I hereby declare that:

My residence, post office address and citizenship are stated below next to my name

I believe I am an original, first and joint inventor of the subject matter which is described and claimed in patent number 5,726,450, granted March 10, 1998, and for which a reissue patent is sought on the invention entitled, "Unmanned Integrated Optical Remote Emissions Sensor (RES) for Motor Vehicles," the specification of which was filed on _____ as reissue application number ____/_____ and was amended on _____.

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by the amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid by reason of the patentees claiming more or less than they had the right to claim in the patent.

At least one error upon which reissue is based is the unnecessary limitation of "unmanned" which was included in claims 1-12 and 14-21.

Every error corrected in this reissue application, including all errors corrected in the amendment referred to above, arose without any deceptive intention on the part of the applicants.

We hereby appoint, both jointly and severally, as our attorneys with full power of substitution and revocation, to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith the following attorneys, their registration numbers being listed after their names:

Thomas J. Scott, Jr., Registration No. 27,836; Stanislaus Aksman, Registration No. 28,562; James G. Gatto, Registration No. 32,694; Christopher C. Campbell, Registration No. 37,291; Henry C.
